PROFESSIONAL SUMMARY

Computer Science undergraduate with practical experience in data analysis, relational databases, and software development. Proficient in Python, SQL, R, and Java; foundation in linear regression, clustering, and supervised/unsupervised learning. Effective remote collaborator and technical communicator.**EDUCATION**

University of the People **Pasadena, California, USA**

Bachelor of Science in Computer Science *Graduated: June 2026*

Cumulative GPA 3.67 (Honor's List September 2024, Dean's List Spring & Fall 2025, Spring 2026)

Relevant Coursework: Programming, Web Programming, Database Systems, Computer Architecture, Communications and Networking, Operating Systems, Software Engineering, Information Retrieval, Data Analytics, Cloud Computing, Cyber Security.

WORK EXPERIENCE

Native Camp **Shibuya-Ku, Tokyo, Japan**

ESL Teacher (Online Contractor) *May 2022 — Present*

- Analyzes client performance to provide targeted feedback and recommendations for improvement
- Delivers 10,000+ online sessions while maintaining consistent client satisfaction and platform standards
- Maintains a personal Tableau performance dashboard tracking satisfaction trends and service improvements
- Personalizes one-on-one instruction for 500+ remote clients, adapting delivery based on needs/performance

VIP Kid **Beijing, China**

ESL Teacher (Online Contractor) *April 2019 — May 2022*

- Conducted 1,000+ sessions for children age 7 and under, simplifying complex concepts for young learners
- Developed lesson plans and assessment metrics to track progress and provide actionable feedback to parents

Cambridge, Universidad Técnica Particular de Loja (UTPL) **Quito, Ecuador**

Online Learning Administrator & Academic Coordinator *July 2016 — March 2020*

- Managed student enrollment records, user accounts, and academic communications within an online LMS
- Provided technical support by troubleshooting LMS access, and account issues for students and faculty
- Administered online assessments and proficiency exams to ensure data accuracy and process consistency

TECHNICAL SKILLS

Languages: Java, Python, C#, R, SQL, JavaScript, HTML, CSS, PHP, PowerShell, Bash

Concepts: Object-Oriented Programming, Operating Systems Fundamentals, Relational Database Systems (ACID), Agile/Scrum, ETL, Big Data, Linear Regression, Clustering (k-means), Supervised & Unsupervised Learning, Predictive Analytics

Tools & Platforms: VS Code, R-Studio, Eclipse, Windows, Linux/Unix (CLI), Tableau, Power BI, Git, GitHub, MySQL, Docker & n8n

SOFT SKILLS

Remote collaboration, technical communication, adaptability,

Language: Intermediate Spanish

CERTIFICATIONS

Foundational C# with Microsoft (April 2026)
Microsoft Azure Fundamentals — AZ-900 Learning Path (September 2025)
Registered Scrum Basics (August 2025)
Python Programming for Everyone (June 2022)
